

SURVEYING SECTOR - REFERENCES

No.	Project Title	Location	Investor/Contractor	Year
1	Geodetic surveying and development of highway GIS, Horgoš-Dobanovci L=194 km Dobanovci-Batrovci L=87 km	Autonomous Province of Vojvodina, Republic of Serbia	PE "Putevi Srbije" Belgrade	2014-2015
2	Geodetic surveying, analytical processing and defining road zone in terms of road chainage -categorized roads of I and II class, L=2150 km	Autonomous Province of Vojvodina, Republic of Serbia	PE "Putevi Srbije" Belgrade	2014-2015
3	Complete surveying works for double line city street 5_New City - Al Hshashah, km 0+000.00 - km 15+745.49, km 0+000.00 - km 11+752.60, L=27.497km	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014
4	Complete surveying works for single line city street 4_New City – Algaa – Wells, km 0+000.00 - km 29+473.72	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014
5	Complete surveying works for double line street 3_Awlad Abu Alhoul - Wadi Ali, km 0+000.00 - km 5+091.04	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014
6	Complete surveying works for double line street 2_Bashimah - University City - Wadi Al Ghrab, km 0+000.00 - km 7+982.51, L= 7.98 km	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014
7	Complete surveying works for double line street 1_Ras Gtet-Wadi Al Ghrab, km 0+000.00 - km 16+103.72, L=16.103 km	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014

8	Complete surveying works for double line road and service roads Al Hshashah - Ras Gtet, km 0+000.00 - km 26+027.57, L=78.00km	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2014
9	Developing expropriation projects for access roads to the facilities on the magistral pipeline "Južni tok"	Republic of Serbia, from the state border with Bulgaria to the state border with Hungary	Institute for Water Management "Jaroslav Černi" Belgrade	2014
10	Geodetic surveying for the purpose of designing DGM and RG with home gas connections and surveying as-built design for the purpose of registering in cadastral records, L=625 km	Sombor Town, Republic of Serbia	Bobar DOO Beška	2013-2014
11	Complete surveying works for improving, upgrading and equipping coastal road Ra's Jdeir - Emsaed, L=1860 km	Libya, Ra's Jdeir	Ministry of Transportation, Transportation project board, Tripoli	2010-2014
12	Complete surveying works for the road project Bir morhan – Asphalt Road (Al Qaryat-Dirj), km 0+000 - km 63+310.15, L=63.310km	Zintan, Libya	Ministry of Transportation, Authority for Roads, Bridges and Lands Transportation	2013
13	Geodetic surveying for the purpose of designing access roads to the facilities in the magistral pipeline "Južni tok"	Republic of Serbia, from the state border with Bulgaria to the state border with Hungary	Institute for Water Management "Jaroslav Černi" Belgrade	2013
14	Geodetic surveying for the purpose of designing DGM and RG with home gas connections and surveying as-built design for the purpose of registering in cadastral records, L=360 km	Municipality of Šid, Republic of Serbia	Gap Generali Appal Ti Publici Novi Sad	2012-2013

15	Geodetic surveying for the purpose of designing DGM and RG with home gas connections and surveying as-built design for the purpose of registering in cadastral records, L=220 km	Municipality of Kula, Republic of Serbia	Bobar DOO Beška	2010-2013
16	Geodetic surveying for the purpose of designing in electrical power industry, surveying of as-built design for registration in cadastral records	Autonomous Province of Vojvodina, Republic of Serbia	Elektrovojvodina - Elektrodistribucija Sombor Sombor	2007-2013
17	Development of layout plans for the purpose of designing traffic lights signalization and geodetic surveying of as-built design for registration in the cadastral records, 98 crossroads	Autonomous Province of Vojvodina, Republic of Serbia	Selma DOO Subotica	2006-2013
18	Surveying works for double line and high-way design, L= 4000 km.	Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2006-2011
19	Geodetic surveying, analytical processing and defining road zone in terms of road chainage, L=621 km	Autonomous Province of Vojvodina, Republic of Serbia	Vojvodinaput - Bačkaput AD Novi Sad	2006-2011
20	High accuracy surveying networks for all requirements.	Libya	ECO and NCB, Tripoli	1996-2011
21	Lot of projects for military, airport, post office, environment and water resources preserving.	Libya	ECO and NCB, Tripoli	1996-2011
22	Surveying works for 66 kV, 220 kV and 400 kV power transmission lines, L=2500 km.	Libya	ECCO and GECOL, Tripoli	2006-2010

23	Design, improving, upgrading and equipping seven (7) roads in Shabiyat Tripoli, L=200 km	Tripoli, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2009
24	Complete surveying works for design of 400kV power transmission lines Bernghazi - Tobruq, L=400 km	Bernghazi, Libya	Hyundai, South Korea	2009
25	Geodetic surveying, analytical processing and defining road zone in terms of road chainage, L=484 km	Autonomous Province of Vojvodina, Republic of Serbia	Kompanija "Vojput" AD Subotica	2006-2009
26	Complete surveying works for road design between Sirt - Ajdabiya, L=400 km	Ajdabya, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2008
27	Complete surveying works for road design between Sabha - Al Jufra, L=350 km	Al Jufra, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2008
28	Complete surveying works for design of 66 kV power transmission lines L=55 km	Awbari 220 – Awabari city, Libya	Energoinvest, BiH	2008
29	Complete surveying works for design of 66kV power transmission lines L=150km	Ghadames - Pump station GMMR, Libya	Siemens, Germany	2008
30	Complete surveying works for design of 66 kV power transmission lines South Libya L= 450 km	Libya	ECCO, Tripoli	2008
31	Complete surveying works for road design between Sirt - Al Jufra, L=250 km	Sirt, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2007
32	Complete surveying works for road design between Hesha - Al Jufra, L=280 km	Hesha, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2007

33	Complete surveying works for road design between Sabha - Ar Raqabah, L=90 km	Sabha, Libya	Secretariat of communication and transport Department of Road and Bridges, Tripoli	2006
34	Complete surveying works for design of Al Hisha – Sirt railway line alignment in Libya, L=135km	Sirt, Libya	Secretariat of communication and maritime transport Department of Railway, Tripoli	1999
35	Complete surveying works for railway line Ra’s Jdeir – Sirt and Tobroq – Mssaed alignment, L=700 km	Ra’s Jdeir, Libya	Secretariat of communication and maritime transport Department of Railway, Tripoli	1999
36	Establishing traverse point network related to railway projects in Libya, L=500 km.	Libya	Secretariat of communication and maritime transport Department of Railway, Tripoli	1998
37	Surveying works for updating maps and underground utilities in Misuratah, about 9000 ha.	Misratah, Libya	ECO, Tripoli	1998
38	Surveying and projection works for project of supplying mani region in Bani Walid, Al Qarabulli, Sirt and Benghazi with Great Man-Made River Waters.	Libya	ECO, Tripoli	1996
